

Gastrointestinal Infections

Viruses		
Rotavirus	Astrovirus	Norovirus Gen II
Adenovirus	Norovirus Gen I	Sapovirus
Bacteria		
<i>Helicobacter pylori</i>	<i>Clostridium difficile</i> Toxin A/B – multiplex	<i>Yersinia enterocolitica</i>
<i>Clostridium difficile</i>	<i>Campylobacter</i>	<i>Salmonella, Campylobacter & Yersinia enterocolitica</i>
<i>Clostridium difficile</i> Toxin B	<i>Salmonella</i>	
Parasites		
<i>Cryptosporidium</i>	<i>Entamoeba histolytica</i>	<i>Cryptosporidium, Giardia & E. histolytica</i> - multiplex
<i>Giardia lamblia</i>	<i>Entamoeba dispar</i>	<i>Dientamoeba fragilis</i>

Respiratory Infections

Viruses		
Influenza A	RSV A+B – multiplex	Parainfluenza 4
Influenza B	Flu A, Flu B & RSV – multiplex	Bocavirus
Flu A+B - multiplex	Flu Typing II (H1N1, H5N1, H3N2 & H7N9) – multiplex	Human Metapneumovirus
Influenza A H1N1	Parainfluenza 1	Adenovirus, Metapneumovirus & Bocavirus - multiplex
RSV A	Parainfluenza 2	
RSV B	Parainfluenza 3	
Bacteria		Fungi
<i>Bordetella pertussis, B. parapertussis & B. holmesii</i> – multiplex		<i>Pneumocystis jiroveci</i>
<i>Legionella pneumophila</i>		

Mosquito and Tick-Borne Diseases

Mosquito-Borne Diseases	Tick-Borne Diseases
Chikungunya	Tick Borne - multiplex
Zika, Dengue & Chikungunya – multiplex	

CerTest VIASURE RT PCR KITS

- ✓ Ready to use lyophilised master mix with internal QC to improve workflow
- ✓ Transport and storage at room temperature allows for ease of storage
- ✓ Long shelf life - 24 months
- ✓ Same thermocycler protocol for all kits, allows for concurrent testing of different assays
- ✓ Compatible with numerous open thermal cyclers to adapt to current laboratory workflow

VIASURE products are manufactured by CerTest Biotec
